REF: Model 25ARTULS-16A

ECR: 14573

Date: June 23, 2003

NEW LIFTABLE AXIS PRODUCT RELEASED

The 25ARTULS-16A offers a 16" ride height, configured using 25,000 lbs per axle rated components, and features special 23,000 lbs capacity air springs, thus permitting this lift-able air ride suspension to equalize with 23,000 lbs capacity primary suspensions. Standard features include the REY-ALIGN®, a true one person multiple alignment system.

For further information please feel free to contact your **TUTHILL Transport** District Sales Manager or Customer Service Account Manager.
